Nuova valvola a farfalla - Caratteristiche *New butterfly valve - Features*

La nuova valvola a farfalla amplia ulteriormente la già vasta offerta di raccordi, valvole e articoli tecnici in PVC, ABS, PE, PP, GFPP, rappresentando l'ultima evoluzione nel mercato di riferimento per impianti di trattamento acque, irrigazione, piscina ed industriali.

Le principali caratteristiche sono:

- Guarnizione integrata nel corpo con doppia funzione di tenuta idraulica e di isolamento da qualunque fluido aggressivo contenuto nell'impianto
- Lente in PP con nervature di rinforzo per una migliore resistenza chimica e meccanica e basse perdite di carico nella posizione di completa apertura
- Sistema di foratura con asole ovali che permette l'accoppiamento con flange secondo gli standard: EN ISO 1452; EN ISO 15493; DIN 2501; ISO 7005 - 1; EN 1092 - 1: ASTM B16.5
- Possibilità blocco di sicurezza tramite foro nella leva maniglia

New Butterfly Valves extend COMER wide range of PVC, ABS, PE, PP, GFPP fittings, valves and technical tools. COMER Butterfly Valve represents the latest evolution within the market and fits for different applications, in particular: water treatment, irrigation, pools and industrial.

Main features are:

- *Rubber gasket on the body with dual function of forming an hydraulic seal and isolating the body from any aggressive fluid circulating in the plant*
- *PP disc with reinforcement ribs allowing better chemical and mechanical resistance whilst ensuring low pressure drop in the full opening position*
- *Drilling pattern using oval slots allowing coupling of flanges according to: EN ISO 1452; EN ISO 15493; DIN 2501; ISO 7005 - 1; EN 1092 - 1: ASTM B16.5 Cl. 150*
- *Possible security block on the handle through the hole on the locking/unlocking device*

Collettori preassemblati

Pre-assembled manifolds

i Su richiesta il nostro staff tecnico può realizzare collettori personalizzati e già assemblati su specifiche del cliente. Le tipologie più comuni sono a 3, 4 e 5 uscite, ma la modularità dei componenti permette qualsiasi incremento con un ampio range di possibilità, dal PVC al PE. Per maggiori informazioni contattare direttamente il nostro ufficio vendite o scrivere una email a info@comeritaly.com

Upon request, our technical staff can realize custom-made manifolds and pre-assembled according to customer's specifications. The most common types are with 3, 4 and 5 outlets, but the modular components allow any implementation with a wide range of PVC to PE outlets. For further information please contact our sales office or write an email at info@comeritaly.com
